

MULTIFUNCTION SCRAPER

Handle with bit magazine

PRODUCT FEATURES

The scraper has a multifunctional blade made from 1.8 mm thick 3Cr13 stainless steel. Designed for removing paint and wallpaper residues, cleaning and scraping external surfaces of pipes, cleaning paint rollers, removing nails, opening paint cans, removing caps, puncturing, prying, tapping, screwing and unscrewing screws. Profiled, two-component, anti-slip TPR handle provides a comfortable grip during the work. The handle is also a magazine and holder for four pieces of bits made from CrV steel - CROSS: PH1, PH2 and FLAT: 5 mm, 6 mm. It has a hole enabling to hang the tool.
