

PRODUCT FEATURES

Integrated masking foil with a painting tape with a width of 20 mm, enables quick and effective protection of the surface during standard painting, spraying and renovation works. Used to protect flat surfaces, doors, windows, window sills, tiles, furniture, etc. Recommended for mounting on smooth or slightly rough surfaces. Used HDPE foil is of high mechanical strength and resistance to various types of paints. In addition, the foil has electrostatic properties, thanks to which it adheres well and reliably to the protected surfaces during application.
