

PRODUCT FEATURES

Inverter welding machines MMA200, MMA160. Technology IGBT. Functions: „Hot start”, „Anti stick”, „Arc force”. Unloaded nominal voltage of -70 V. Work cycle -30%/60%. Efficiency -85%. Fan cooling. Recommended electrodes diameters 1.6-4 mm. Insulation class - H. Level of security 21S. Thermal protection. Equipment: 1.8 m cable with a 200A electrode holder and 1.2 m cable with a 200 A ground clamp. Weight 4.0 kg.

CODE	OUTPUT CURRENT RANGE [A]	☐
