

PRODUCT FEATURES

Inverter welding machine MMA/TIG 200. Technology IGBT. Funktion: 'TIG PULSE'. Unloaded nominal voltage of -60 V. Work cycle - 60% 200 A. Efficiency -85%. Fan cooling. Recommended electrodes diameters: TIG nonconsumable electrodes 1.6 - 4 mm, MMA electrodes 1.6 - 4 mm. Insulation class - H. Level of security 21S. Thermal protection. Equipment: Electricity and gas TIG cable, 3 m, TIG ceramic nozzles, 3 pcs (5,6,7), TIG sleeve clamp, 3 pcs. (1.6 mm, 2 mm, 2.4 mm), nonconsumable TIG electrode, 1 pc (1.6X150 mm). 1.8 m MMA cable with a 200 A electrode holder, 1.2 m MMA cable with a 200 A ground clamp. Weight 7,1kg.
